

*The IES Brain Research Foundation Summer Fellowships are for outstanding, bright, motivated undergraduate and first year graduate or medical students, who are in the process of deciding if neuroscience research is to be part of their career plans. The fellowships provide the opportunity to work with & be trained by an established, experienced scientist in the field of brain research.*

**Applicants should arrange training with and be accepted by a faculty sponsor, who is the head of a first rate laboratory at a university, medical school or research institute in the U.S.A.**

**IES Brain Research Foundation Summer Fellows will receive a stipend of \$2500 and are expected to spend 8-10 weeks (full time) during summer 2010, being trained in a first rate U.S. laboratory.**

**The application deadline is: March 15, 2010.**

**5 neatly collated packets, including copies of everything requested of you and your faculty sponsor must be mailed in one package and received by the March 15<sup>th</sup> deadline to be considered by the scientific committee.**

***Note: Incomplete or illegible applications will not be considered.***

**As a 2010 Foundation Fellow you will be expected to:**

- 1) Receive research training and perform research for 8-10 weeks full time with your mentor/faculty sponsor. Your mentor will be working closely with you and will be available for questions and guidance**
- 2) Submit a written report of your research experience, with photos of you and your faculty sponsor by **9/15/2010**. The report should be about 2-3 pages long and should summarize your research accomplishments, what you have learned, as well how this experience has impacted your career plans.**
- 3) Say a few words (1-2 minutes) at a dinner or cocktail party about your research experience. It should include a short (in lay friendly terms) summary of your project and the field it could impact, plus how the summer experience may affect your career plans. A written script of this, with your faculty sponsor's script, along with photos (of you and your faculty sponsor in the lab, office, etc.) must also be submitted in advance, by **9/15/2010**.**
- 4) Acknowledge the Foundation as a source of funding in publications arising from your 2010 summer research and send us a copy of each publication.**
